

College Girl Firmly Denies Al Child Slaying Charges

'Unique' Defense Due
By Miss O'Connor
In Court Battle

PHILADELPHIA, Feb. 14 (AP)—Mary K. O'Connor, 19-year-old husky blonde, today firmly denied that she caused the death of 5-year-old Nancy Glenn last Labor Day.

She pleaded innocent to charges of murder, manslaughter and involuntary manslaughter before Judge Joseph Ross.

Her attorney, William A. Gray, indicated her defense would be unique in the face of statements introduced at hearings that the young physical education student struck down the child in anger over her teasing and left her for dead, face down, in a mud puddle.

Gray stood beside her, holding her arm, as she heard the indictment read separately. She answered the first, charging her with murder.

"NOT GUILTY"

"I'm not guilty."

To the others, she simply said: "Not guilty."

Assistant District Attorney Charles C. Gordon built the state's case around two statements that Miss O'Connor caused the death of Nancy, a neighbor girl.

The first statement is one Detective Captain Murphy said Miss O'Connor made, three days after the slaying.

Murphy said the girl told him in this statement that she hit Nancy because she became angry with her, then left the girl for dead.

The child's body was found beside a dirt road. Her face was in a shallow puddle of water.

The second statement was made by Mrs. Marie Phillips, housewife, former member of the U. S. Olympic team. The O'Connors told Mrs. Phillips was her "best friend."

MRS. PHILLIPS' STORY

Mrs. Phillips said her statement, made ten weeks after Nancy's body was found, that Mary came to her house soon after the slaying and told her she had caused the girl's death.

Mrs. Phillips is under arrest as a material witness. She said she withheld the information out of "loyalty" and because no innocent person had been arrested.

Miss O'Connor, arrested last November at the home of her grandfather in Marchantville, N. Y., has been at liberty under \$2000 bail. She was indicted on charges of murder, voluntary manslaughter and involuntary manslaughter.

She was charged on the eve of her trial and cabled with friends at her home in Marchantville.

Body of Cannon Taken to York, S. C.

AIKEN, S. C., Feb. 14.—The body of J. W. Cannon, 54, member of a widely known textile manufacturing family, who died here after a stroke attack, was sent to York, S. C., today for burial.

Cannon was 22 years old and operated an aviation training school in Orlando, Fla. He suffered acute brain congestion, broken leg and arm and internal injuries when his open cockpit plane nose-dived from a low altitude late Saturday.

'Southie' Youth Party Tonight

The committee is headed by Frank Flaherty, assisted by Claire Nevulis, Mary McDonough, Helen Zeigler, Gertrude McCarthy, Dick Vio, Ed McCarron, John Sullivan, John Deaul, and Harry Cundari.

Ward Six Associates At Municipal Building

The Ward Six Associates will hold a dancing party and South Boston Night at the Municipal Building, Broadway, South Boston, tonight.

The party is the first of a number of social affairs planned by youth of the district. They are aimed at physical betterment of the young and to stimulate interest in civic affairs.

The committee is headed by Frank Flaherty, assisted by Claire Nevulis, Mary McDonough, Helen Zeigler, Gertrude McCarthy, Dick Vio, Ed McCarron, John Sullivan, John Deaul, and Harry Cundari.

Protest Exclusion At Business Talk

SPRINGFIELD, Feb. 14 (AP)—The Springfield County Dealers Association, numbering 35 independent distributors today sent telegrams to President Roosevelt protesting failure to include any representative in the recent conference of small business men and labor.

"We are looking to you for help," the telegrams said.

The message states that the dealers in Springfield in the formation of the first NRA code and denied a representative in the Federal Trade Commission as recently as last September.

Deal Neutrality Act Assailed By Sen. Lodge

Declares it Would Aid Japan Under Its Provisions

WORCESTER, Feb. 14.—Senator Henry Cabot Lodge, Jr., addressing the Republican "City Veterans" dinner here, assailed the administration's neutrality act as a weapon which Japan can use to its own advantage the more it is enforced.

"The cash and carry" provisions of the measure nullify its chief purpose, he said, and would, in reality, aid the country possessing the greatest sea power.

WOULD AID JAPAN

"In the present crisis, which finds China with practically no funds, our neutrality act would benefit Japan," he added. "We don't want to be allied with that country."

Assailing the federal housing bill, he predicted the program would fail to stimulate housing and thus curb the recession.

"The bill would probably demoralize rather than encourage the real estate market. Owners of homes already constructed would be greatly affected, to their regret," he warned.

Instead of benefiting men in the lower salary brackets, the bill is shaped to assist great monopolies, he said.

"It is not generally known the bill contains no deterrent whatsoever against reckless and imprudent lending," he said.

RAIP PENSION PLAN

"The plan could easily become a device to make handouts to monopolistic corporations. It means the construction of one new tool house in the United States."

The government's method of handling social security funds also came in for the senator's criticism.

"I intend that when people set aside money in payroll taxes to take care of their old age that this money should not be used to pay general expenses of government, but should be held down," he declared.

"This is why I will introduce legislation soon to correct this law and make it more workable and more safe."

He urged a general control of wage funds, saying such a system would minimize political interference.

Judge Fixes Charge McCoy Must Face

NEW YORK, Feb. 14 (AP)—Judge Charles B. Walker ruled today that Mayor Thomas P. Murphy must face two other charges, in addition to the one already pending against him in New York City.

Mayor Murphy, James Donaghy and Joseph Ryvolet, arrested last fall on complaint of Congressman Charles H. McNary, had appeared from a New London police court conviction.

Judge Anderson Dies in Florida

Florida Judge George Wald Anderson, who retired from the bench of the First State a year ago, died here in 1937. He died in Deland, Fla., according to word received by Attorney Francis G. Goodale today.

Judge Anderson, whose home was in Wellesley, was 76 years old. He had been in the practice of law here in 1936, and was junior counsel for the city of Boston.

Funeral services, Attorney Goodale said, he was advised, will be held Wednesday in Orlando, Fla., at the cremation chapel there.

Judge Anderson, prior to his appointment to the federal bench, was for several years United States district attorney in Boston.

He began the practice of law here in 1936, and was junior counsel for the city of Boston.

Funeral services, Attorney Goodale said, he was advised, will be held Wednesday in Orlando, Fla., at the cremation chapel there.

Romance Ends

Stage Star, Third Husband Part

CLAUDIA MORGAN

Love for Footlights Comes First

CLAUDIA SAYS SHE LEFT HUBBY BECAUSE HE OPPOSED CAREER

Winchell was right, Claudia Morgan admitted today.

The actress-daughter of the late William Morgan, now appearing in "Wine of Chateau" at the Wilbur Theatre, confirmed the Broadway columnist's radio tip that she and Charles Harnburg, Jr., her third husband, had reached a parting of the ways.

—STUCK IN CAREER—

Openly admitted that her latest marital rift has been publicly revealed, the daughter of Bowen Arthur Morgan declared that a legal separation had been solemnly arranged a few weeks ago because of "career trouble."

"Above everything, I love the stage and I intend to continue my career," Miss Morgan said. "I guess my husband's opposition helped bring this situation about."

Natural to Claudia's desire to follow the footlights since her daddy not only is a star but, too, is her uncle, Frank Morgan, whose film starring has made him a frequent candidate for the Academy Award.

—IN MANY STAR ROLES—

Member of a wealthy family which controls a patent medicine fortune, Miss Morgan, related a social career, and at 16, her fiancé, Howard Hughes, went on the stage.

Her first husband was Talbot Cunningham, son of Mr. and Mrs. Lawrence B. Cunningham of New York and Manhattan. They were married in October, 1931, after a brief courtship.

Miss Morgan, who was then 17, was married to Mr. Cunningham in July, 1933, after she had been married to Mr. Hughes for a year.

Plan Payments To New Jobless In Bay State

Check All Workers Dismissed Since Dec. 31 Filing

Hundreds of jobless persons, entitled to benefits under the Unemployment Compensation Act have not received their payments, the Boston Evening American learned today.

Dismissal of these persons by certain large corporations a few days after their wage reports were filed last December 31, has caused confusion and delay officials explained.

Officials at the Unemployment Commission declared that protests by those who failed to receive their checks resulted in a checkup with the various corporations involved.

Checks to these persons, they said, would be mailed out within a few days. It was also explained that the records of these dismissed persons would appear on the March wage returns of the corporations.

Officials estimated today that 13,000 unemployment checks, totaling \$1,250,000, have been sent out February 1.

Civic, Military Groups Plan Many Events

First President's Plea 'Prepare for War' To Be Stressed

"To be prepared for war is one of the most effectual means of preserving peace."

Greater Boston organizations and public officials today continued to participate in the nation-wide observance of Defense Week, the period when Americans recognize the need for national defense. The week ends on Washington's Birthday.

Radio broadcasts, addresses in 21 Greater Boston high schools, special meetings of fraternal organizations and ceremonies by public and military groups will mark the observance.

WALK, LODGE TO SPEAK

President of the Greater Boston Walk-Lodge, Inc., will be at the nation-wide observance of Defense Week, the period when Americans recognize the need for national defense.

Radio broadcasts, addresses in 21 Greater Boston high schools, special meetings of fraternal organizations and ceremonies by public and military groups will mark the observance.

"The U. S. Army is maintained to insure tranquility and to secure us from aggression. Because of its modest proportions no threat or menace to the rights of other peoples can even remotely be intended."

Maintenance of the regular army at 140,000 officers and 1,000,000 enlisted men is one of our objectives. Another is maintenance of the National Guard at a minimum strength of 250,000, with yearly increase of 50,000 men.

'ADEQUATE DEFENSE'

This military growth plus additions to ROTC and C.M.T.C. units would provide the United States with adequate defense should war break out.

"Realization of the Reserve Officers' objectives for the Navy is under way because legislation has already been started to bring naval strength up to standard, following President Roosevelt's request of Congress to appropriate \$500,000 for up-to-date sea defenses."

Presidents and secretaries of the Reserve Officers' Association throughout the First Corps Area of the U. S. Army are in charge of Defense Week programs.

Aid Drive Launch State Plans To Protect Nation

The administration has announced all plans of being able to turn the relief program back to the states and cities for an indefinite period, it was disclosed today.

Touting in secret sessions of the House Appropriations subcommittee considering the emergency \$200,000,000 relief fund, Deputy WPA Administrator Aubrey Williams warned Congress that such proposals are impossible.

Williams, outlining the desperate relief situation in some cities, gave two reasons for the inability of the federal government to discontinue relief.

The first, he said, is the inability of many cities to either raise more taxes or sell warrants. The second is the constitutional limitation of debt in many states, which the voters will not allow.

"And," an administration leader added to the secret hearings, "you can add a third reason. Every member of Congress who voted to turn relief back to the states and cities would be defeated."

For federal officials or administration leaders in Congress are ready to see the ill-fated relief program.

Under the Hopkins plan, unemployed workers would be sent to work, but unemployed would be given federal jobs. While this still the general WPA plan, it is a demand for added relief as well as a demand for a relaxation of the plan.

Eire's Tolerance Lauded by Consul

Foley Says Protestant Bishops Prove
Ulster Charges Are Untrue

This is a second of a series of articles by P. Galway Foley, consul for Ireland in Boston on the internationally interesting question of union of Ulster and southern Ireland. In the first article, Consul Foley asserted there is no truth in the claims of the Craigavon government for continuance of the partition. These claims are that Ulster is an entity whose people are different in race, religion and general characteristics from the rest of Ireland inhabitants.

By P. GALWAY FOLEY
Consul of Ireland in Boston

The injection of religious bigotry into the Irish question was the result of a carefully devised plan executed in the interests of British imperialism.

In 1792 the Earl of Westmoreland, then Lord-Lieutenant of Ireland, wrote to Pitt stating he conceived the object of both of them to be to have England control Ireland and suggested that the best method was "a Protestant Garrison in possession of the land magistracy and power of the country holding that property under the tenure of British power, and supremacy and ready at every instant to crush the power of the conquered."

In 1799 Lord Grenville wrote the Lord-Lieutenant expressing great anxiety that such measures should be taken as would prevent the Catholic and Protestant union being counteracted by the Catholic and Protestant union. He stated that "there is no evil I would not prophesy if that union takes place."

This system of fostering religious bigotry and division by the establishment of a Protestant ascendancy did not destroy the religious toleration of the Irish Gael. This toleration has become proverbial. It has been recognized and referred to by such Protestant historians as Lecky, Leland, Lang, Fox, Sidney Smith, Taylor, Burke and Hallam.

LECKY QUOTED
Lecky, in his History of the Eighteenth Century, volume II, page 389-391, states:
"In spite of the fearful casualties which followed the reformation, it is a remarkable fact that not a single Protestant suffered for his religion in Ireland during all the period of the Marian persecutions in England. . . . The Act establishing liberty of conscience passed by the Irish Parliament in 1685 in the reign of the later Catholic ascendancy under James II exhibited very remarkably this aspect of the Irish character. The experience of John Wesley half a century later was very similar and he has more than once in his famous sermons in terms of warm appreciation of the almost everywhere encountered."

The Reverend H. S. Lunn, an English clergyman and fellow-countryman, stated "we reviewed the history of Ireland and found that the annals of Irish Catholicism from its earliest date were free from any record of persecution." This trait of toleration has been dwelt upon by leaders of the Jews, the Quakers, and the dissenters. Mr. John E. Green, the Irish Protestant Historian, tells in "Irish Nationalism" how the man Protestant Dissenters and the French Huguenots driven out by their own countrymen sought and found refuge in Catholic Ireland where their descendants to this day practice their Protestant faith without let or hindrance.

HEREBY ACKNOWLEDGED
As himself an Ulsterman of Protestant faith, in his reply to Richard Kipling stated:
"I am a person whose whole being goes into a blaze at the thought of oppression of faith and yet I think my Catholic countrymen infinitely more tolerant than those who hold the faith I was born in. I am a Jew, judged by their standards; one who has written and made public his heresies, and I have never suffered in friendship or found my freedom an obstacle in life."

Today after 17 years of native rule, Protestant bishops in the south of Ireland sit with one another in testifying to the more than generous treatment meted out to their co-religionists by the government of the 26 counties. At a synod of the Protestant church held at

Morro Castle Disaster Predicted by McIntyre

Was it clairvoyance, second sight, or just plain coincidence—connected with the burning of the steamship Morro Castle in 1934?

On the very morning, and practically on the very hour, when the steamship disaster was discovered, an article was being printed in scores of papers through the country predicting the disaster. It was written by O. O. McIntyre, a taxi driver, and had been penned by him at 3 a. m. on Saturday, Aug. 18, three weeks before the disaster of Saturday, Sept. 8. This was what McIntyre wrote:

"It is 3 a. m. and sleep is fugitive. A big chair at the window is inviting. In front of the Park Lane a taxi driver is hunched over a tabloid, the only spark of human life within eye range. The break of dawn offers a rare moment for introspection—to talk to one's self. Awareness is tingling in the dead black hours. Somewhere a ship is in trouble at sea. Somewhere the first faint cry of life. Life, death, life, death. Like a tick-tock-tick."

The S. S. Morro Castle was discovered to be on fire at 3 a. m. on Sept. 8. Mr. McIntyre himself says he cannot explain how he happened to write that paragraph three weeks before the disaster. He says it was written in an hour of sleeplessness before dawn. Perhaps the psychic powers of individuals are more likely to be in the ascendancy at 3 a. m. than later, as doctors say that physical vitality is apt to be at its lowest time in the morning.

"I got impressions that I set down on paper and one of these smoky pictures was of a ship in trouble at sea, with death hovering over."

O. O. McIntyre Dies Suddenly

Continued From First Page

In the common schools and Bartlett's College, Ciceston. **REPORTER AT HEART**
O. O. McIntyre's first newspaper job was that of reporter for the Gallipoli Ohio Journal. He held many other editorial positions in later years but he always had a keen mind and indications of a reporter. Over and over again in his column he referred to his important duties on the Gallipoli paper. It was back in 1922 when he was a youth of 15 that he became a reporter.

From gathering local news on the Gallipoli Journal, McIntyre moved to the Eastern Ohio Tribune. There he was a "feature writer" and he made enough salary for him to marry. His bride was Maybelle Hope Seal of Gallipoli and they were married on Oct. 5, 24th birthday.

BOSE STEADILY
The gauging young newspaperman moved steadily up the journalistic ladder. He left East Liverpool to be political writer and later managing editor of the Dayton Herald. He was named the Cincinnati Post. In 1932 he made his first magazine assignment as editor of the Cincinnati Post.

New York became his goal, just as it has been the goal of countless newspaper men from all over the country.

He came to New York and he became one of the great columnists of America. He never left New York thereafter, except on trips.

INVENTED FEATURES
McIntyre's column, "New York Day by Day," which he began on a shooting, attained tremendous popularity, and soon was a syndicated feature in newspapers throughout the United States, Canada and Mexico.

The one-line small-city reporter invented such paragraph features in his column as "Tangier Whirlwind," "The Diary," "The Bugs," "The Thimble," "The Purely Personal Remembrance," the "Purely Personal Remembrance" and the "Look Alikes."

Sophisticates of Manhattan and the third feature in the rural areas "ate up" McIntyre's stuff with a relish. He carried on in a blunder of speaking, where O. Henry left off.

He reached his greatest audience in February, 1932, when he became featured writer for the Hearst press.

The McNaught Syndicate handled his column. **300,000 WORDS YEARLY**
Including his articles for Cosmopolitan Magazine—which has been preparing his biography for publication beginning in the April issue—his yearly output ran to 300,000 words.

He drew his material from four sources—his memory, his reading, his observation and his mail. He received about 2000 letters a week. O. O. was the big letter's No. 1 boulevardier—the rainbow-hued columnist.

In his younger days he was to the theaters, restaurants and night club every night with Mrs. McIntyre. His flashy wardrobe was the talk of the town. He loved color. His shirts were something to gaze upon. His collection of cakes was tremendous.

Of late he rarely dined out, and seldom attended a theater more than once a week. **RODE AT 5 MILES PER HOUR**
He would take a drive in his town car at the saddle pace of 25 miles an hour—which was regulation back in Gallipoli. He didn't buy a car until 1924. He once wrote he felt "rather distinguished" because he seemed to be the only New Yorker who didn't own an automobile.

He traveled abroad a great deal after getting his career firmly founded. **Odd McIntyre's column was always scrupulously clean.** It was fun for the editor family.

Before he took an apartment on Park Avenue he lived at the Fifth Hotel for years. His favorite color was purple, and his haberdashery started more than one guest.

All McIntyre's writing was done in red ink on paper bearing a red monogram.

Aides Rewarded Under Peabody Estate Will

Two nurses, a bookkeeper and other employees of the late General Peabody, prominent sportsman, attorney and business man, who died February 9 last, will share in his estate, it was revealed today when his will was filed in DeKalb probate court.

Reside of the estate, estimated to exceed half a million dollars, was bequeathed to his three daughters, Mrs. Rosemond P. Hamilton, of Dedham, Mrs. Martha P. Peabody of Canton, and Mrs. Sylvia Peabody Mitchell, of New York city.

General Peabody left \$5000 to Mrs. E. Goddard for "his abode and faithful service as my bookkeeper for many years."

Elizabeth Wright, a nurse, was bequeathed \$1000. The same amount was willed to each of four business associates, Samuel H. Ratchelder, William B. Luther, Albert B. Carey and Henry W. Palmer.

Other employees who will be given \$200 each under the terms of the will are Clifford A. Clark, Mary, Rosemond P. Hamilton, and William Zachary. General Peabody died \$5000 each. They are B. Nelson Hamilton Monague, W. W. Prouse and Clarence V. S. Mitchell.

Never Lived In Cherished Ohio Home

The house in Gallipoli still stands empty today. S. R. McIntyre sent agents to the city to buy the house—his wife's childhood home, the house in which they had their courtship.

The place was purchased, painted, completely renovated and repaired. And Odd as it may seem, the house was never lived in by the couple.

The local telephone company, sharing the town's pride in Odd, connected up its telephone, and assigned it number "101."

He always retained a strong liking for the windows, eaves, and the house stood empty for many months. Odd said, "I would rather see it than live in it where he and Mrs. McIntyre were going."

**Rev. T. F. Lapsley
Honored at Mass**
A requiem high mass for Rev. Thomas F. Lapsley, S. R. McIntyre's parish priest, was held in the morning at the Union Church, Roxbury, by Rev. J. Healy, Roxbury, pastor of the church. Rev. Father Lapsley will be buried tomorrow in the cemetery of St. Boniface church Philadelphia.

McIntyre Died A Millionaire

NEW YORK, Feb. 14 (AP)—Charles B. Driscoll, editor of McIntyre's Syndicate and long-time friend of O. O. McIntyre, said following the columnist's death today that McIntyre complained mildly of feeling ill on Sunday after reading the day's newspapers and making notes for his next column.

"At the last, he seemed to become exhausted and just went to sleep," Driscoll said, adding that the exact time of the columnist's death was ascertained only by the death certificate issued by the medical examiner.

The editor said McIntyre's salary for many years had been over \$5000 a week, and that he was worth "upwards of a million dollars," despite heavy financial losses in 1935.

Tomorrow AMERICA'S LARGEST FLEET OF ULTRA-MODERN STREAMLINED TRAINS

will be announced in this newspaper

For many years had been over \$5000 a week, and that he was worth "upwards of a million dollars," despite heavy financial losses in 1935.

TO CIGARETTE "MOISTENERS"

Mr. Tareyton says:
If you are in the habit of moistening the end of your cigarette, you know how ragged it soon becomes. You can moisten a Tareyton Cork Tip all you want—it won't get soggy or stick to your lips. Moreover, Tareytions give you finer, milder tobacco.

REBERT TAREYTON

OLD FAMILY TREATMENT FOR COLDS AND BODY BUILDING . . .

Father John's Medicine Not Only Helps Break Up Colds But Builds Up The Body.

Was Named by the People—Its 83 Years of Success in Convincing Proof of Merit—

This medicine was originally prescribed for Rev. Father John O'Brien, of Lowell, Mass., by his physician in 1855. He afterwards recommended it to his parishioners and friends.

In this way it became popular known as Father John's Medicine, and many thousands have since been benefited by this valuable prescription.

No amount of advertisement alone could possibly have built the reputation that Father John's Medicine has earned and maintained for over eighty years as a treatment for colds and a body-builder, unless it had proven value and merit.

(Copyright, 1938, by International News Service)

ably into regal costumes in his next, "If I Were King," which Ronald Colman, our most popular portrayer of princely roles, will starred.

This is based on Justin Huntley McCarthy's play and deals with the life of the French nobleman, Gaston de Valois, a rags-to-riches story. Don't confuse it with the "If I Were King" musical. The "If I Were King" musical is based on the play "The Prince of Wales" by John Galsworthy, which was adapted for the screen by the same author. The musical is based on the play "The Prince of Wales" by John Galsworthy, which was adapted for the screen by the same author.

by Parsons and some other actors. The Lloyd version now being taped by Paramount Pictures will be a musical, though it is believed to use some of the songs of the original film's delightful songs. Parsons and his wife, actress Kim E. Mathers, are expected to be in the film. E. Mathers, who has been married to Stephen Fuld, New York radio executive any time now, is

MONDAY MORNING MUSINGS: It is nice that the attempt to make the theater a "soap-box" for the proponents of the various "isms" proved unprofitable. . . Had the theater-going public responded at the box-office, the so-called "industrial drama" would have been with us too long. . . Most propaganda plays this season, even in New York, have failed to click. . . The two successes of the recent Broadway play crop, "On Borrowed Time" and "Our Town," are imaginative plays, each with a dash of fantasy.

A suggestion for that radio program which deals out bouquets to a Boston woman worthy of recognition is the name of Sylvia G. Dreyfus. . . That is her professional name. . . In private life, she is Mrs. Carl Dreyfus, wife of the publisher of this newspaper. . . An accomplished sculptress, and interested always in the lively arts, Mrs. Dreyfus began a writing career several years ago as much for her personal fun as for other reasons.

In the February issue of two national monthlies, Mrs. Dreyfus is represented by two articles. Harper's Bazaar (which incidentally has two pages of art devoted to painting in Boston) has her by the back Bay writer entitled "The Artist on Tour—Conversations with Schnaber." . . In the Atlantic Monthly, Mrs. Dreyfus has a story, "Ladies Wear Flowers," which describes a talk with Heifetz, explaining the lack of applause which greeted appearances before audiences composed largely of women. . . It is interesting that she fails to appreciate the artist, but that the fact she is committed to the mode of weaving lovely lines and not . . . "Milly," and she is smart enough to know when pointed out, does not wish to split hairs in trying to explain the artist. . . Mrs. Dreyfus' style is vivid, her knowledge of her subjects wide, and her writings are in demand.

PLACE-TACK PHILOSOPHY: There is a senior John A. Brown, who can best be described by the long expression "Here on the bright," which means that a gentleman in particular, John A. Brown, Sr., emerges from the company of his own generation or occasionally, to slip into the category of some of the company's purchasing agent. . . He is old and a story-telling fool as El Mercurio the other evening and stole the show. . . One of his stories told the company of old and the company of old. . . He is old and a story-telling fool as El Mercurio the other evening and stole the show. . . One of his stories told the company of old and the company of old.

'Kathleen' Held Over 2d Week

"Kathleen," the popular modernized picture, is being held over a second week at Tremont Temple by popular demand. There are daily performances from noon until 11 p.m., except on Sunday.

Starts in this charming and beautiful film are Tom, Burke, Sally O'Neill and Sara Alcott.

In "Kathleen," Burke, that excellent actor, has an opportunity to show his fine dramatic talent as well as his stardom.

Mr. O'Neill never appeared to better advantage, pictorially and emotionally. Sara Alcott, now starring in Broadway's "Shadow and Substance," is magnificent, of course.

Next week will be the final week. —LIFE OFFICER TAKES.

Playbill

Movie Clock

OPENING

"There's Always a Breeze" — At the Shubert Theater tonight "There's Always a Breeze," new comedy by Edward Catfield, will be presented by Joseph M. Hyman and Irving Cooper.

Claire Lohuis, William Lynn, Leona Power, and Blanche Sweet will play the leads and chief supporting roles will be taken by Curtis Cooker, Otto Huelst, Ralph Hammer, and Ann Baxter.

Others in the cast will include John Hart, young Hollywood film actress, and Leslie Barrell, who portrayed the role of "Tommy" in the original production.

"Dead End" — The play unfolds the story of a middle-aged husband who goes home to find his wife in bed with another man.

"Wine of Choice" — This sparkling comedy hit goes into its second and final week at the Wilbur Theater tonight.

This latest work of the author, N. Behrman, derives its title from the heroine's attempts to choose the best of her suitors and sign a "freedom of choice" in a disturbed world.

"You, My Darling Daughter" — Mark Rodd's comedy hit enters its fourth week at the Plymouth Theater tonight

Dainty Menus For Valentine Parties

By MARTHA LEE
From Martha Lee's Monday Morning Breakfast Hour Station WJLB

February may be described as "short and sweet"—the shortest month of the year, but the most replete with holidays, including this sweetest one of all, Valentine's Day.

Many are the legends of its origin, but regardless of how it began, we all love it.

A Valentine party is the year's best opportunity for the housewife to revel in the preparation of dainty cakes, fancy fish courses and other delicacies, in using her best lace cloth, in decorating the table with flowers.

And even if there is no party, she can prepare a Valentine dessert, which will please young and old alike.

Here is the recipe for a Valentine pudding: a light, delicious morsel, white and fluffy as snowflakes, with a sauce as red as the heart that is the symbol of Valentine's Day.

VALENTINE PUDDING
1 cup cake flour
1 teaspoon baking powder
1/2 teaspoon salt
1/2 cup butter
2-3 cup confectioners' sugar sifted
1/2 cup milk
1 egg
1 quart strawberries or 1 cup red cherry preserves
Sift flour, measure and sift twice with baking powder and salt. Cream butter, add 1/2 cup of the flour, and beat well. Then add the flour mixture and milk alternately, beating until smooth after each addition.

Beat egg whites until stiff, add remaining sugar, and fold into batter until blended. Turn into well-buttered individual heavy molds and steam or bake in a pan of hot water for about 45 minutes. Remove to cake coolers.

Serve warm with sliced, sweetened strawberries or cherry preserves. Makes five or six servings, depending on size of mold.

There are numerous recipes for making sheet cake that can be cut with a heart-shaped cutter. Following tested recipe for Brazil nut sponge cake is just the one to insure the perfect Valentine cake. It is easy to prepare, too, which is a boon to the hostess with her party requirements.

BRAZIL NUT SPONGE CAKE
3 eggs
1/2 cup sugar
1/2 cup flour
1 teaspoon baking powder
1/2 teaspoon salt
1/2 cup cold water
Beat the eggs, add the sugar and beat together well. Sift the flour with the baking powder and salt and mix with the egg mixture and the cold water to the egg mixture and then the flour and nut mixture. Beat well. Pour batter into shallow greased jelly roll pan (13x9 inches). Bake at moderate oven (350 deg. F.) for about 20 minutes.

Remove from pan at once and cut into small cakes with a heart-shaped cutter. Frost with butter icing which has been tinted a delicate pink. From one-half Brazil nut into each cake as a garnish. Serve on small paper plates.

VALENTINE SALAD
1 tablespoon gelatin
1/2 cup cold water
1/2 cup boiling water
2 tablespoons vinegar
1/2 cup sugar
1 cup raw crabmeat, coarsely ground or chopped
1/2 cup dried celery
1/2 cup onion juice
1/2 teaspoon salt
Soak gelatin in cold water about 5 minutes and dissolve in boiling water. Add vinegar, sugar, and onion juice. Allow to cool and when starting to congeal add crabmeat, which has been coarsely ground, diced raw celery and pineapple.

Rinse out heart-shaped mold in cold water and fill with salad mixture. Allow to congeal in cold place. To serve, unmold on lettuce leaves and garnish with mayonnaise dressing.

Married Comrades

By Adele Garrison

CHAPTER 230

ALLEN DRAKE'S humor is sometimes positively Quilpish.

It was never more so, I decided, than when he uttered the quip about the necessity for my registering "proper daughterly solicitude" for him during the scene which we were planning to stage upon the upstairs balcony for the benefit of the men in the shack above the farm.

That he was trying to bait me, enjoying the process, was patent. But I wondered if beneath that apparent indifference he was not in a deeper and more insidious one: the desire to annoy Dicky, whose jealous irritation at my pseudo-uncle's elaborate attention to me had been but ill concealed.

"Why should he have to be present?" he queried lightly. "He is in almost a state of exhaustion now, and ought to remain in bed all day."

"I should think the presence of a nurse and an attendant with you would be sufficiently convincing."

DRAKE DOESN'T AGREE
Allen Drake's hot reply was a formal, frigid thing, but it was the effect of a mocking sneer.

"I cannot agree with your premise," he said. "But I, of course, yield to your authority. What I ask the nurse to arrange things for me in the morning."

I was amused at Dicky, but his reaction was only what I had expected.

"I shall—" I began indignantly. "Lillian saved me from an outburst that would have infuriated Dicky, and you, my dear Allen Drake."

"For the love of Allah Dicky!" he drawled. "Will you stop flapping your wings and get back into your cage? Of course, Madge will have to do the dutiful daughter act."

"For these birds know their stuff—and we're proud of it! That effort—they're wise to the fact that Madge never would permit her dear father to be without her upon his first day out."

"That's all very well, but Dicky has an air of agreeing with Dicky. Then he swiftly and smoothly changes his mind."

"But I think you're right about this and I don't want to risk it," he went on. "They know the right man as they tried anything like that."

"They also know that the farm is heavily patrolled—and they probably shrewd enough to guess they're being watched as suspicious characters by the state police."

HARRY'S DEDUCTIONS
He seemed, for a moment, but went on before Dicky could interpose any objection to his theory.

"If I were some insignificant person who stood in the way of a girl, he said, 'Oh if it were the chief in some secluded spot where they had just returned from New York, and they just want to know that they are safely parked in his own backyard.'"

"Once they convinced that he was to do this, they would be in the country, they'll get the well-to-do who will then fold their tents and get out of here."

(Copyright, 1938, K. F. Lee)

Tips on New Toppers

DAINTY poke bonnets with an old-fashioned air, like the one worn by lovely Olivia De Havilland of Hollywood, above, may be had in fine toy straw for between five and ten dollars. This one is white, with scoop brim and navy tulle binding and bows. Fringe trims the pillbox, which is still popular, at left. This may be had in black, rose and gold for a little over five dollars in a Boston shop. After some snooping about, today we tell of the latest news on the fashions front, both in Paris and in Boston.

Newest Spring Bonnets Now Shown in Boston Shops

Don't annoy me by telling me that this is only the middle of February. I know it's spring. Men may place their seasonal faith in such mundane things as calendars, or in such silly superstitions as the ground-hog and his shadow—but we women know that when the new hats arrive, spring has come!

Well, they are here, and they are simply scrumptious. The Paris shows over, the eager-eyed fashions leaders tore across the Atlantic pulsing with news, and you can see the result now in Boston hat departments.

There's nothing that picks up the spirits like shopping for the season's new hats. And this season it is more of a delight than ever. For hats are still dainty enough to be interesting, and ever so much more becoming than the head-pieces of last season.

After an hour spent in wandering about a shop which has the latest styles, you will find a long list of hats, with a long list of the buyer, who will be sure to find a hat to flatter you no matter what your type of features.

The key question influences the choice of hat, and the particular details give the credit to the buyer's taste. The hats of the 1930s are well represented, and so are the early 1930s. This historical range gives us a wide variety of styles, all of us charming.

Sailors are probably the outstanding feature of the season. This shop has them in fine millinery. From four to eight dollars, they are very smart in shades of pink, blue, and red. They are also in pillbox, Mexican or calico style and also in an open-crowned model with a small brim.

Flower trimming is used in gay profusion everywhere. Sailors, poke bonnets, shallows, open all, wear bunches of posies in the happiest of colors. Beautifully finished hats out from the moored brims of hats are they in hoop-skirt days.

Bridge Theory Contradicted

By JOSEPHINE CLERTON

Many players seem to have the quaint idea that the partner is apt to make a calamitous opening lead.

From my experience I believe that just as many bad opening leads are made after partner has shown the way as in the absence of any definite leading whatever.

At every table, North became the declarer at spade contracts ranging from two to four. The bidding in all cases started with a spade by South, and was followed by a trump by North.

At every table, West overruled with two diamonds, and from the point of view of East, North was assured of a good match-point score, because East invariably laid down the diamond King as his opening lead.

After that, nothing could prevent declarer from ruffing his third diamond in the dummy and this, with the successful spade finesse, gave North-South five tricks.

Now, it was the declarer who was left to make his own selection of opening lead with the spade contracts held to nine tricks. With no ruffing lead from West, both of these Easts selected the club four as the safest and most constructive lead.

The wedding took place Saturday afternoon in the chapel of the Benedictine Monastery of St. Mark's School. The bride is a graduate of St. Margaret's School, and the groom is a member of the Junior League.

Mr. Swinnow, who is engaged in the business of a bookbinder, graduated from St. Mark's School in Southbury.

Listen, World! Young America Speaks

By Elsie Robinson

ANOTHER blast against Pop and Mom? Think heaven, most of them don't rate it. But how it'll burn those who do! So more power—see!—to 18-year-old CLYDE DWIGHT SHAW, of Denver, Colorado.

"Dear Miss Robinson—
They call us FLAMING YOUTH—huh, that's a laugh. FLAMING PARENTS—that's the bestest laugh. They tell us that it isn't good for us to smoke—And then light up a cigarette and blow the smoke in our face."

"They tell us never to come home with liquor smelling on OUR breath—And then they throw a beer party that night. They tell us never to go to the so-called 'hotspots'—And then flip a coin to see which one they are going to tomorrow night."

"They tell us to be in no later than 11 a. m.—And then THEY come dragging in about 3 a. m.
They tell us that the baroque new showing at the opera house is too filthy for anyone to see—And then call up to see if they can reserve a seat for Saturday night."

"They tell us to use their automobile once in a while and tell us not to speed—And then wonder where they are going to get the money to pay their second or third speeding ticket."
"They wonder what the younger generation is coming to—And they have cause to wonder, with the example they are setting."

"FLAMING YOUTH? NO! Just human beings who are curious to find out about things which seem to so please our parents."
"They call us FLAMING YOUTH—huh, that's a laugh. FLAMING PARENTS—that fits better."
Clyde Dwight Shaw, age 18, "Denver, Colo." (\$10 prize winner)

Hot stuff, youngster! But you'd better save that barrage and see how you feel about it yourself when YOU'RE A POP!

And now another Tar Bomb—SHOULD WE SOAK THE RICH? Is a man a Public Enemy just because he's moved his money? HAZEL DANIELS OF DENVER, COLO., has ideas.

"DO YOU RESENT THE OTHER FELLOWS PAY CHECK?"
"Soak the rich! How often have you heard that phrase uttered from almost everybody's mouth? Sounds particularly good to the average man working eight to 15 hours a day for, anywhere from 60 dollars a month to that same amount each week. Why not take the money from those who have plenty and give it to poor devils some of it? Lord knows we have hard enough for what we do get."

"In fact, why not distributed the rich man's money evenly among all the 'underprivileged'? Then everybody would have as much as everyone else, and we could all start on even!"

You think that would be fine, do you? But that's where you're wrong. Dead wrong. FOR WITHOUT THE RICH, WHERE WOULD BUSINESS BE? Who would put up the money to start factories and business of all kinds going, back new businesses?"

"TAKE YOUR STORE OWNER'S MONEY AWAY FROM HIM AND YOU TAKE IT OUT OF YOUR OWN MOUTH, AND THAT'S A FACT!"
"On the other hand, how did the rich get their riches? Certainly it was manna from heaven. True enough—some lucky persons inherit money almost every day. But where did it come from in the first place?"

"Someone had to earn it. Earn it by working a little harder, being a little more ambitious, absorbing every scrap of information he could get his hands on—sacrificing and struggling TO WHERE HE IS NOW."

"SOAK THE RICH? Why haven't we their luck? SIMPLY BECAUSE WE'RE TOO DARNED LAZY OR SELF-INDULGENT OR COWARDLY TO FOLLOW THEIR EXAMPLE. If instead of 'soaking the rich' you'd junk some of your own selfishness and get busy, you'd have some of that 'luck' which you envy the other fellow."

"Mrs. Hazel Daniels, age 22, Denver, Colo." (\$10 prize winner)
That's a job of the good old American common sense, sister. Common sense says: we need young people like that.

Last comes 17-year-old HELEN STRITZINGER OF NEW CASTLE, Pa., talking to The Younger Crowd—and how. Go to it, little girl.

"Dear Miss Robinson—
High school students are forever grumbling about their night work, their tough tests and their mean teachers. But if we, as students, cannot undergo the small tests and hardships of our high school days, how do we expect to fight and overcome the hardships of life?"

"If I grumble now about such trivial matters, then we'll always be grumbling in life.
"Our high school days are only preparing us for what we must face later on. The teachers, the tests and the night work are only examples of the obstacles we will meet in life, gradually getting harder. If we cannot face them now, we cannot expect to face life with a grin and a wallop."
"Opportunity will soon knock! Grab while the grabbing is good, and prepare yourself in such a manner that when you graduate you can face life with a big hearty smile written across your face for victory—not a good, hard cry."
Helen Stritzinger, age 17, "New Castle, Pa." (\$5 prize winner)

Stunning Slip Covers

PERHAPS you're from Missouri about home-made slip-covers. You'd love to make a new cover for your worn chair—but could you really make a trim-looking one yourself?

You could! In less than a day you can stitch up a lovely cover, smooth your material over the upholstery, wring aside any if you want the more formal design. Begin at the top and work toward the front seat, pinning, tucking, smoothing to the upholstery every 3 inches. To relieve strain, allow a 4-inch tuck-in between seat and back as the diagram shows. Leave a 2-inch tuck-in between the seat and each arm.

Now you're ready to cut, baste and stitch. Cut your material 1/2 inch outside the piece to allow for seams. Pin in most trimmings from the right side, basting on the wrong side and try on. Is it just right? Only a final baste on the wrong side, and a stunning new chair, which has cost you really very little.

In our 40-page booklet, MAKING SLIP COVERS SUCCESSFULLY, to Boston Evening American Home Institute, 10 West 15th Street, New York, 36, you will find a plain plan, and the NAME, ADDRESS, and the NAME of the booklet.

Need life for your booklet, MAIL NO. 101 COVERS SUCCESSFULLY, to Boston Evening American Home Institute, 10 West 15th Street, New York, 36, you will find a plain plan, and the NAME, ADDRESS, and the NAME of the booklet.

Chin straps are definitely in, but if they give you that moon-faced look, resist! You can get a hat with a long veil and high trimming of flowers that will be just as smart and much more becoming.

One of the most delightful of the hats in this store is a flat crepe turban or rose and large, sitting right on top of the head, with a long veil and high trimming of flowers that will be just as smart and much more becoming.

The Paris milliners went mad over this excellent display of fashions to the flick on their creations. But, however, it is a mirror of the fashion, and there are no birds or grasshoppers mixed with the designs. If you must have a feathered friend on your hat, you can buy them and have them put on.

If you want to know the shop where this excellent display of Spring headlight is to be seen, go to the Boston branch of the Boston American, or send a stamped and self-addressed note with your request by mail.

DON'T be a tipster. Don't say your face when you are impatient. Don't wrinkle in your chair when conversations bore you. Don't have any of these bad habits, you lack poise, and poses these days are an important ingredient in the formula of charm and good looks.

Well, you're a little over the furniture should reform. If last night, never heard that word? Well, it's coming into use again. If you're going to mail about in the house, the alcohol in the perfume that has ever been created, you should behave pretty.

At every table, North became the declarer at spade contracts ranging from two to four. The bidding in all cases started with a spade by South, and was followed by a trump by North.

At every table, West overruled with two diamonds, and from the point of view of East, North was assured of a good match-point score, because East invariably laid down the diamond King as his opening lead.

After that, nothing could prevent declarer from ruffing his third diamond in the dummy and this, with the successful spade finesse, gave North-South five tricks.

Now, it was the declarer who was left to make his own selection of opening lead with the spade contracts held to nine tricks. With no ruffing lead from West, both of these Easts selected the club four as the safest and most constructive lead.

The wedding took place Saturday afternoon in the chapel of the Benedictine Monastery of St. Mark's School. The bride is a graduate of St. Margaret's School, and the groom is a member of the Junior League.

Mr. Swinnow, who is engaged in the business of a bookbinder, graduated from St. Mark's School in Southbury.

Helen Hurlbut Is Wed To Richard Swinscoe

MRS. JOHN HENRY HURLBUT, of Waterbury, Ct., announces the wedding of her daughter, Helen Hurlbut, to Richard Swinscoe, of Worcester.

The wedding took place Saturday afternoon in the chapel of the Benedictine Monastery of St. Mark's School. The bride is a graduate of St. Margaret's School, and the groom is a member of the Junior League.

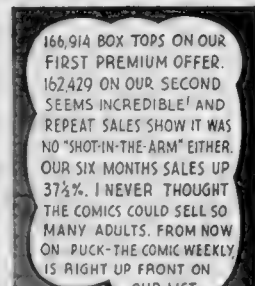

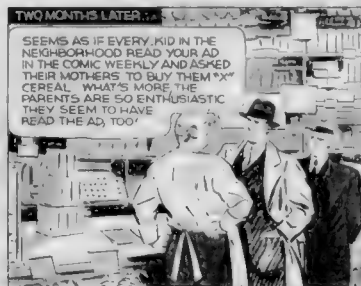

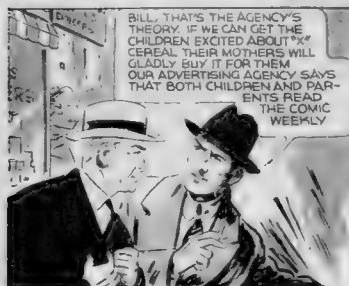

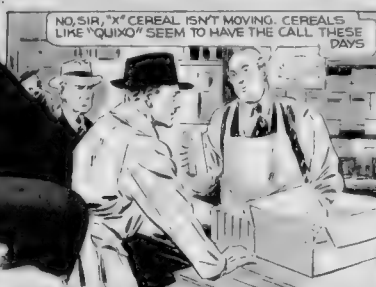

Mr. Swinnow, who is engaged in the business of a bookbinder, graduated from St. Mark's School in Southbury.

Millions Are Fighting That Tired Feeling

Some people are always tired, no matter how much sleep they get. Often they are tired because of constipation. For early fatigue, mental dullness, nervousness, poor stomach and its resultant bad health, mental depression, the aggravation of most ailments, constipation, can be cured by it.

So keep regular. And if you need to get regular, Dr. D. C. Williams' Pink Pills. This gentle laxative can help bring relief. Extremely important, too, for the tired feeling is given drive of life from the liver, without the liver the body cannot get going. That's why millions are sold yearly. All druggists, 14c, 50c, 60c.

He wouldn't use "comics" until...

★ The experience of this cereal manufacturer has been duplicated time and again in other lines in the past five years...soaps, foods and beverages, typewriters, safety razors, dentifrices, etc.

★ Puck-The Comic Weekly sells both adults and juveniles at the same time. Actually it wins the attention of *twice* as many adults as juveniles...delivers an audience of 12,702,000 adults and a circulation bonus of 6,900,000 juveniles.

★ Each week in six million homes Puck-The Comic Weekly is eagerly read by 4,688,000 housewives and 1,680,000 other female adults; 4,524,000 husbands and 1,830,000 other male adults; 3,660,000 male juveniles (under 18 years of age) and 3,210,000 female juveniles. (Authority: Daniel Starch Survey.)

★ Puck-The Comic Weekly has one editorial policy...one cast of characters...one make-up...one printing standard from coast to coast. The number of advertisements per issue is limited, assuring each advertiser spotlight visibility.

Complete information is available on how the All-Star Cast has captured America's Buying Majority, who determine what American retailers stock and sell. Please phone Columbus 5-2642, New York, or Superior 6820, Chicago.

GIRL About TOWN

By ANN MARSTERS

In New York they are called "Buffa," in Chicago, "Fana," and in Boston they are known as "Sparks." They are, of course, that group of people who cannot resist a fire, who will endure all manner of hardships in order to stand shoulder to shoulder with the fighting firemen, giving whatever assistance is possible.

There is a club of Boston Sparks called "Rox 52." It was organized in 1912, and got its name from the box which was pulled for the Boston fire in 1912. It's made up of 52 active members and 52 associate members. They meet socially once a month, to talk "shop" and pay their dues.

To be a real Spark, you must have a badge and be connected, in some capacity with a fire department, which permits you to have sirens and red lights on your car.

There are two "notification services" in Boston which, according to a member of the Rox 52 Club, work like this:

"We Sparks are fortunate in hearing of multiple-alarm fires at all times of the day or night. We have contrived with a portable alarm service that has an alarm siren which is notified of every alarm fire in the city."

They Talk About Flicks, 'Red-Stub'
One of the members of the Rox 52 Club is a member of the Rox 52 Club. He has been a member of the Rox 52 Club for a long time. He has been a member of the Rox 52 Club for a long time. He has been a member of the Rox 52 Club for a long time.

THIS IS LIFE
By ROBERT E. ROGERS

Because Lincoln's birthday came on Saturday, when there is no column, I missed the chance to speak of a book published only this past week, obviously for a anniversary. It is entitled "The Hidden Lincoln," edited from the collected papers and monographs of William H. Herndon, Lincoln's friend and law partner by Emanuel Hertz.

The volume, published by the Viking Press, offers to the present generation material which, although most of it has been published previously either by Herndon himself or imbedded in various other biographies, is the work of authors who drew upon Herndon's materials, has not for at least 50 years been republished in anything like its original form.

"The Hidden Lincoln" is not a composed biography. It is a collection of letters to and from Herndon from many sources, from the time of the assassination when he began to collect his Lincoln material to 1869 when he published his incomplete and bawdier letters or writings left by him.

Herndon wrote many years before it became the modern fashion to imitate that anything in his letters or biographies was inspired by the desire to "settle" the Lincoln myth.

But long before the days of Rupert Hughes or Lynton Hargrave or Camille Bradford Herndon was inspired by the same idea, that happened Herndon's enormous personality of being an authentic first-hand story drawn from the intimate knowledge of Lincoln over many years, plus the collections he made of fragments of Lincoln's old friends about his early life.

In fact, the method of Herndon as revealed in his writings was to have Lincoln's name, a real name, or what, a symbol of an "unreality." Would you cheat mankind into a belief of falsehood by defrauding their judgment? Mr. Lincoln must stand on facts or not stand at all.

In fact, the method of Herndon as revealed in his writings was to have Lincoln's name, a real name, or what, a symbol of an "unreality." Would you cheat mankind into a belief of falsehood by defrauding their judgment? Mr. Lincoln must stand on facts or not stand at all.

Blanche Sweet Slim, Blonde As in Silent Film Heyday

Her New Stage Play Opens Tonight At Shubert

By ANN MARSTERS

It is nice to meet someone like Blanche Sweet—someone who has known the very height of success as a silent film star, and who has been in the same line of work for so long.

Blanche Sweet is a very young woman, but she has been in the same line of work for so long. She has been in the same line of work for so long.

Blanche Sweet is a very young woman, but she has been in the same line of work for so long. She has been in the same line of work for so long.

RAYMOND HACKETT BLANCHE SWEET Hand in Hand, Look Brightly Toward Future

Couple, Baby Flee Winthrop Fire

Fire of undetermined origin today destroyed estimated at \$2000 to \$2500 the two-story building at 31

Mr. and Mrs. William H. Hackett, a couple who have been married for a long time, were in the building when the fire broke out. They managed to escape with their baby.

The fire broke out in the early morning hours. The building was a two-story structure. The fire spread quickly, and the couple and their baby were forced to flee.

The fire was caused by an undetermined origin. The estimated damage was between \$2000 and \$2500. The couple and their baby were unharmed.

Burglars Miss Crippled Man \$2100 in Safe Amnesia Case

Thieves entered open a safe in a house on the corner of the street, but they did not find the \$2100 in the safe.

The man who owned the safe was a cripple. He had been in the hospital for a long time. He was now home, but he had no memory of the safe.

The police are looking for the burglars. They have a description of the man who owned the safe. They hope to find the safe and the money.

Goldsworthy's Goal in Overtime Puts Bruins Back in First Place

Rangers Win, 4 to 1, And Lead Section For 20 Minutes

By BILL GRIMES

The about 20 minutes that eluded New York Rangers were all paid in the American Division of the National Hockey League. The Bruins, who had been in the lead since the season began, were knocked out of the lead by the Rangers' 4 to 1 victory last night.

Goldsworthy's goal in overtime was the key to the Rangers' victory. The Bruins had been in the lead since the season began, but the Rangers' 4 to 1 victory last night put them back in the lead.

R. BOSNI

Penny-Chludinski
Amateur Thriller

Casey Is Tops
As Mat Champ

By JACK CONWAY

ACTION of the most intensified kind... This is why amateur boxing is so popular with the fans. There will be another big crowd in the Garden tonight to witness the international amateur boxing show that will bring together teams representing the United States, Ireland and Canada.

I am still heavy-weight minded and am looking forward with interest to seeing Tom Penny of Ireland and Frank Chludinski of New York clash. Penny and Chludinski are terrific punchers... It should be another jam such as Chludinski and Joe Lubin staged in the semifinals round of the Eastern finals of the Heart of America bouts.

I am picking Mike Coffey, Irish middleweight, against the field... Mike won in his class in the international show here two years ago, and they tell me he is today an improved fighter... The Irish boxer tells me that Con O'Kellie, who boxed as a professional at Col. Bob McKirdy's Commercial A. C. seven years ago, is back coaching him, and recently won the heavy-weight championship of Northern Ireland.

Steve Casey of Kerry, who won the world's heavy-weight wrestling championship when he defeated the colorful Louis Ther of St. Louis in three falls at the Garden, will take in the international boxing show tonight... Casey will rest up this week from his hard battle with Ther, but next week will start a wrestling tour through the East and West... Casey's manager, believes the Irishman's power and variety of holds will enable him to turn back all-comers.

The 12,000 crowd at the Casey-Ther bout was a good omen for the mat game... The bout itself was spectacular with the two developing all of their time to wrestling... They didn't toss the rules to the winds, and keep crashing through the ropes to the floor of the arena as has often happened in big matches... The crowd appreciated the fact that the boys gave everything they had in the line of wrestling.

There isn't any reason for the youthful Thers to get discouraged because Casey stripped him of his championship. They scored the only fall over Casey and they tried... These will keep improving for two or three more years, and had an excellent chance to regain his lost championship.

Princess Baba made a wise decision when she made no objections to Bob Gregory, her wrestling partner, returning to the wrestling ring... Princess Baba will view the contest from the royal box... The Princess was very gracious to the hundreds of persons in the Garden who made the trip... Many of the autograph hunters have the signatures of builders of athletic and movie stars, but it was the first time they were able to secure the autograph of a royal Princess.

Bob Gregory proved his good sportsmanship when he did not offer any objections to Princess Baba entering the movie... I have always felt that adult persons should be permitted to follow what career they like, and that matrimonial bonds should not be used to destroy ambition.

"Tiger" Jack Fox Has Fine Record

"Tiger" Jack Fox, who throws punches at Lou Brezinski at a Garden A. C. show at the Garden on Friday night, is a real challenge to the "Tiger" who will be facing him with John Henry Lewis, world light heavyweight champion... But he is not the same man as the "Tiger" who was once called "The Tiger" because of his power and speed... He is now called "The Tiger" because of his power and speed... He is now called "The Tiger" because of his power and speed...

Jeffra, Escobar
Wind Up Training

BAN JUAN, Puerto Rico, Feb. 14 (AP)—Champion Jeffra and Escobar today began putting the finishing touch on their training for the world light-weight title bout as officials predicted the giants might meet next Sunday.

Jeffra, the Baltimore brawler who took the title from Zacher in "King Jacob" "entirely at his own expense" in New York last summer, planned to continue his work-out until Wednesday and then taper off. Zacher started slowing down process today.

Complete Big Ski Jumps at Berlin, N. H.

BERLIN, N. H., Feb. 14 (AP)—The National Youth Administration today continued its winter sports camp at Berlin, N. H., which is to be one of the biggest all-jump in the project, which includes a giant ski jump, 311 feet high, was started last week. The dedication is scheduled for March 5.

They'll Do It Every Time

Revised Line, Schmeling, Louis Jimmy Adack Showing Fans Real Punch For Chicago

NEW YORK, Feb. 14 (AP)—New York State's esteemed boxing commissioners have come through and chased another "million-dollar" gate right out of town.

If there previously had been some doubt as to whether the fight between Schmeling and Louis would be a money-maker, the decision of the commissioners has removed any such doubt. The fight will be held at the Madison Square Garden on Saturday night.

The commission, presided over by Commissioner James J. Connelley, has decided that the fight between Schmeling and Louis will be a money-maker. The fight will be held at the Madison Square Garden on Saturday night.

Stock Market Gains Paired As Profit Taking Appears

Port Authority Urges Bridge Be Moved

Transfer of the Northern avenue bridge to provide a continuation of Oliver street is one of a series of recommendations in the annual report of the Boston Port Authority, presented today in Governor Murray, Mayor Tobin and the Legislature.

The report also recommended closer coordination between the port and the East Boston district as well as provision for tearing down the Atlantic avenue elevated structure.

Other suggestions contained in the report included a plan for reconstruction of waterfront streets with funds from the state gasoline tax and a study and revision of the port's entire pier system.

"Consideration should be given the fact that the present Northern Avenue bridge within the next 15 or 20 years will have to be replaced. This bridge should be moved over to a location on the opposite side of the river, in preference to its present location, and Oliver street should be continued through to connect with North street at the location of the present Pier A," the board urged.

"This would eliminate the curve in Northern avenue and allow it to cross the bridge opposite a through street, the plan of the bridge of Piers 1, 2 and 3 and further up toward the river, 100-foot slips could be obtained and a thorough modern terminal facility in the heart of the city provided."

The report is signed by Louis E. Kirsch, chairman; Richard Parkhurst, vice chairman and secretary; Mayor John F. Fitzgerald; Maxwell R. Grossman and David M. Howe.

In a plea for closer coordination between the port of Boston and the report, bridge projects were made for the city in the development of European and American.

Cranberry Surplus Relief Is Sought

WASHINGTON, Feb. 14 (AP)—Representatives of the Massachusetts and today officials of the Federal Surplus Administration have invited Marcus L. Hansen, Maine, president of the Cranberry Growers Association, to discuss a possible program to relieve the surplus of cranberries.

Hansen said there was one of the largest cranberry growers in Massachusetts, 26,000 acres of the commodity corporation buy cranberries for distribution in children's school lunches.

Canada's Revenue Up \$66,000,000

OTTAWA, Feb. 14 (AP)—The national revenue of Canada totaled \$480,000,000 for the first 10 months of the current fiscal year, according to the monthly statement of the comptroller of the treasury.

This is an increase of more than \$60,000,000 over the same period of the preceding year. The report for the 10-month period shows a surplus of \$20,000,000.

Fairbanks, Morse Gets Navy Award

NEW YORK, Feb. 14 (AP)—Fairbanks, Morse & Co. has been awarded a contract by the United States navy for \$1,750,000 ship service equipment to be built at its shipyard.

The contract calls for delivery in fourteen months of eight 500-horsepower generators each powered by a 100-horsepower Diesel and two 200-horsepower Diesel engines driven by a 100-horsepower Diesel engine.

Steel Operations Up to 31.0 P. C.

NEW YORK, Feb. 14 (AP)—Operations in the steel industry for the current week advanced 2.5 per cent of capacity to 31.0 per cent, compared with 30.7 per cent last week, the American Iron & Steel Institute estimated today.

A month ago the rate was 29.8 per cent of capacity, or the year of 1937 it was 28.5 per cent.

N. E. Farmers' Cash Income Up 1.1 C.

(By Associated Press)

Farmers of the New England States received a total cash income of \$241,472,000 in 1937, which the New England Council reported today was a four per cent increase over their 1936 income.

An early, half-hearted rally in stocks sent some shares upward by a point or more, but near the close they had slipped back to their day's high.

Business was slow and the ticker tape was frequently motionless. Most trading was of the cash variety. It was asserted by traders who pointed out that brokers' orders, an index of margin activity, had dropped to \$272,000,000, or 10 per cent below the level of 1936.

Up most of the time was T. W. Steel, Bethlehem, Youngstown Sheet & Tube, which advanced 1/4 point to 10 1/4. Washington, Westinghouse Electric, Philip Morris, Union Carbide and Southern Railway, all advanced 1/4 point. Chrysler, International Harvester, Western Union, and General Electric, all advanced 1/4 point. Standard Oil of New Jersey, Standard Oil of Indiana, and Standard Oil of Ohio, all advanced 1/4 point.

Stocks that dropped a bit included, among others, U. S. Steel, International Nickel, and International Paper.

Maloney Bill Is Protested

NEW YORK, Feb. 14 (AP)—A dangerous conspiracy of federal power over state and municipal affairs was being exposed by the Maloney bill, John S. Maloney, chairman of the House National Bankers' Association, declared in a letter made public today.

Addressing Francis E. Fruehling, president of the association, he asserted that municipal bondholders, who are the primary beneficiaries of the Maloney bill, are being exposed to the risk of federal power over state and municipal affairs.

Maloney said that the Maloney bill, which would give the federal government the right to issue bonds for the purpose of financing the construction of public works, would be a "dangerous conspiracy of federal power over state and municipal affairs."

Greyhound Seeks To Buy N. E. Line

WASHINGTON, Feb. 14 (AP)—The Greyhound Corporation is seeking to purchase the New England Coast Line, Inc., operating in New England, according to a report made public today.

The corporation proposed to pay \$1,000,000 for the line, which is currently operated by the New England Coast Line, Inc., which is a subsidiary of the New England Coast Line, Inc.

New Passenger Car Sales Reverse Trend

NEW YORK, Feb. 14 (AP)—The trend of new passenger car sales in January 1938 reversed the trend of the previous year, according to a report made public today.

The report showed that new passenger car sales in January 1938 were up 10 per cent over the same month of 1937, while in 1937 they were down 10 per cent over the same month of 1936.

New Plan For Rail Aid Seen

Washington Interest At High Point as Action Replaces Talk

By HUGH E. BRADSHAW

Out of the winter of rail plans, investigations and just plain talk surrounding the railroad problem, a real rehabilitation plan is likely to rise in the next few weeks. It is being prepared by a committee headed by ICC Chairman Spawton and is said to call for creation of a transportation board with wide discretionary powers.

Washington interest in the railroad has been steadily increasing over recent weeks, and it is expected that President Roosevelt will announce his intention of calling a conference. At the same time, the Senate investigation of the railroads is likely to be continued, and the House is likely to pass legislation to increase the rate of interest on the railroads.

Although the content of the new plan is not yet known, it is expected that it will call for the creation of a transportation board with wide discretionary powers. The board is expected to be composed of representatives of the railroads, the government, and the public.

The board is expected to be responsible for the creation of a transportation plan, which is expected to be submitted to the President for his approval.

Business Outlook

Personal of the various Washington sources, it is expected that the new plan will be a real rehabilitation plan, which is expected to be submitted to the President for his approval.

Averages Gain Despite Great Uncertainty Reach Highest Level Since Break on January 26

By LEWIS HANEY
(Professor of Economics, New York University)
Special to Boston Evening American

NEW YORK, Feb. 14.—Despite great uncertainty, the composite averages of the stock market gained a little ground last week, rising to the highest level since the break on January 26. The week's trading, averaged between two and two points, depending upon the proportion of high-priced stocks contained in the average.

The outstanding characteristic of the stock market was the volume of trading. This was both low and declining. In fact, the volume for the week was the lowest since June, and on Friday it was the lowest since the beginning of the year.

Obviously this week's lack of follow-through in the recovery movement, the unwillingness of important traders to buy on the rise, and the tendency to sag after a brief spurt are subject of bearish speculation.

But a consideration of the circumstances suggests the possibility of a less unfavorable interpretation. No one will deny that the market last week was confronted by an almost unbroken series of rain and disturbing conditions. In view of the fact, the performance was not so bad.

CONDITIONS UNSETTLED

For example, foreign conditions were much unsettled, notably in Germany. At the same time, the dollar was weak in foreign exchange, thus suggesting that foreign funds were being withdrawn from this country. The steps taken toward increased relief of the government were being financially disturbing, and talk of further federal property and currency manipulation may partly explain the sale of dollars.

Plans of the House of a bad farm bill did not help matters. Finally, the developments in the steel industry brought double uncertainties. In the end, the price of steel sheets the beginning of a downward price readjustment.

Cuts to lead and zinc prices emphasize the question.

In any case, it should now be reasonably clear that earnings for the first quarter of 1928 will not go to be good, and are going to look bad in comparison with the 1927 period.

The fact that the market was able to hold its gains, is thus not so unfavorable. Probably some realization of the conditions mentioned above are not all as serious as they seem. The withdrawal of funds may be in part to the interest of the outlook as to peace in Europe. The reduction in metal prices marks a final readjustment that could anticipate the beginning of recovery in the second quarter. Usually the steel industry does not get going until there is some assurance of actual buying.

Furthermore, while the demand for desirable in the long run, the resumption of government spending at a more rapid rate than taxes withdrawn funds may serve as an satisfactory stimulus. It was the sudden ending of such spending, together with the raising of the reserve requirement, that marked the termination of the market last year.

BONDS RISE

The rise in bond prices is also to be noted. For nearly two weeks now, the market for corporate bonds has been stronger than the stock market. This condition is not conclusive, and may be temporary. On its face, however, it suggests a turn for the better in investment confidence. At the moment it appears as an encouraging symptom along with the "backlash" move which shows progress in liquidation of undervalued securities carried by underwriters or dealers.

There is much real heartening among the Wall Street intelligentsia. Unquestionably there are favorable possibilities to be considered, and caution is not to be discarded.

We find the averages and some leading issues "rattling off." They show difficulty in going through the "gap" made January 26. Evidently the potential buyers are awaiting the outcome of the uncertainties discussed above.

It seems reasonable to suppose that until some immediate stimulus comes (presumably from Washington), the market will continue to wobble within the recent trading range.

As long as bonds hold up, however, or break-through in the down side is probable.

STEEL PURCHASES CONTINUE LIGHT

NEW YORK, Feb. 14 (INS)—Buyers of steel are making purchases to current needs, the magazine Iron reported today. Most of them are making immediate deliveries, giving indications that in domestic steel demand. The "policy" of this market is particularly affected by the fact that the new steel pending the outcome of their freight rate increase applies to the first of March.

Some tonnage is coming in from the naval construction program, and other shipments are being made. However, the market and early ship placements are relied on to produce additional tonnage. An extended period. Automobiles as mentioned showed slight gain during the week.

Motors Head Sees Slump Short-Lived Sloan Hits Unsound Taxes, Urges Business-Government Understanding

In the following authorized interview with **Merryle Stanley Ruketier**, noted financial commentator, **Alfred P. Sloan**, chairman of board of General Motors, puts the current recession under his microscope as a business man and sees the possibility it may be short-lived.

By MERRYLE STANLEY RUKETIER
Noted Financial Commentator
Copyright, 1928, by International News Service

NEW YORK, Feb. 14 (INS)—Alfred P. Sloan, Jr., generalissimo of the vast force operated by General Motors Corporation, readily acknowledges that he has a bone.

The real bone, which ails production schedules and detours many many hours of the automobile buyer's time, is the corporation can provide, according to Mr. Sloan, is the automobile buyer's time.

In chatting with me about the economic conditions, Mr. Sloan directed that the corporation revise its operating plans on the basis of analyses of the behavior of the retail customer during the last available ten-day period.

MAJOR INDEX

He says that, as a matter of fact, the whole business in general, Mr. Sloan, revolves around that major index.

Mr. Sloan has the impression that other automobile manufacturers follow a similar technique.

This runs counter to the political illusion that business executives are untainted monarchs in the world of enterprise who determine whether their fellow men shall be idle or employed.

Mr. Sloan's revelation indicates that the automobile buyer by placing or withholding orders for cars gives or withholds employment to workers.

Although, against assumption of the academic circle of business is the automobile magazine have in blood decided to cut down their production for the year in the belief that they could make a bigger profit in holding up prices and restricting volume.

VOLUME SETS PRICE

As to this, Mr. Sloan points out that his corporation, in determining the costs per car, in an accounting, assumes a standard volume of production and prices its cars accordingly.

Then, if volume should be less than computed, these inevitably result a shrinkage in net profit and vice versa. All emphasis is placed on establishing a volume that will produce the largest possible volume.

Although, according to Mr. Sloan, automobile costs went up 15 per cent last year, they were market up but eight per cent.

Another reason for the reduction of wage costs resulted for the first time in a decrease in the cost of the industry in which each year the value has increased.

Mr. Sloan feels that there was no need for this depression was caused before the recovery movement had completed its normal pattern.

He no longer thinks that it could be alleviated by relieving business of the burden of the tax.

STUMP "SHORT LIVED"

Mr. Sloan attributes the current economic slump to an unbalancing of the means and price structure last year when delicate adjustments were upset amidst much confusion.

As to the duration of the attack, Mr. Sloan points out that the attitude of the market suggests the possibility that it may be comparatively short lived, although he declines to make any specific forecast.

He is on that point, however, that Mr. Sloan feels that there was no need for this depression was caused before the recovery movement had completed its normal pattern.

He no longer thinks that it could be alleviated by relieving business of the burden of the tax.
